

Arctic Village, Alaska Scenery for FSX

by: Scenery4FlightSims.com

This is fictional scenery for Arctic Village, Alaska (PARC), designed for FSX.

I created this scenery to "dress up" the area, which was pretty bare and outdated.

Here is what to look for in this scenery package:

- > Additional parking ramp and added parking spots
- > Removed default buildings and added a buildings that seems more appropriate for this scenery
- > Modified the shoreline of the two lakes at the RWY-02 end of the airport so water did not appear on the slopes
- > Added night lighting to the ramp area
- > Added landclass town to represent the town of Arctic Village which was omitted in default scenery
- > Added missing GPS approaches (02 and 20) along with waypoints which were never included in default scenery.
- > Added a fictional dirt taxiway to RWY-02.
