

Barrow, Alaska Scenery for FS9
by: Scenery4FlightSims.com

This is fictional scenery for Barrow, Alaska (PABR), designed for FS9. I created this scenery to "dress up" the area and update the airport.

Here is what to look for in this scenery package:

- > Added runway 7-25.
- > Converted runway 6-24 to Taxiway "D".
- > Deleted Stock ILS 06 and added ILS 07 with ID "IBAW" (Could not use IBRW because that belongs to Stock ILS 06 which cannot be permanently deleted).
- > Extended existing taxiways to runway 7-25 and relocated taxiway signs.
- > Removed default buildings and added buildings that look more appropriate for area.
- > Added more parking.
- > Extended ramp entire length of airport per Google Earth view.
- > Added ramp lighting for night operations.
- > Removed landclass village of Barrow because of numerous trees which do not exist in real world.
- > Built up smaller village with scenery objects.
