

Cordova-Smith Airport, Alaska Scenery for FSX
by: Scenery4Flightsims.com

This is fictional scenery for Cordova-Smith Airport, Alaska (PACV), designed for FSX. I created this scenery to make it a bit more realistic. The default scenery was pretty bare and the buildings just didn't fit.

Here is what to look for in this scenery package:

- > Removed most of the default airport buildings and replaced them with more appropriate buildings.
- > Reconfigured the parking spots and added additional.
- > Added some missing taxi signs.
- > Placed yellow cones along the gravel runway 16-34.
- > Added night lighting to the ramp area.
- > Added a cargo ramp / hangar.
