

Dillingham, Alaska Scenery for FS9

by: Scenery4FlightSims.com

This is fictional scenery for Dillingham, Alaska (PADL), designed for FS9. I created this scenery to "dress up" the area, which was pretty bare and outdated.

Here is what to look for in this scenery package:

- > Added a gravel taxiway for the longest stretch of Runway 01-19 so you don't have to taxi the full length on the runway. No Airport Diagram available.
- > Added a landclass town to represent the town of Dillingham.
- > Added buildings to the airport ramp area after deleting the unrealistic default buildings.
- > Added night lighting to the ramp area.
- > Added taxiway signs.
- > Added fishing boat docks and Factory.
