

Eureka, Alaska for FSX

by: Scenery4FlightSims.com

This is a representation of the Eureka Lodge and airstrip (PAZK) in Alaska (eurekalodge.com). The Lodge is located along the scenic Glenn Highway 128 mile Northeast of Anchorage.

In the default scenery, this area was totally unpopulated. There was nothing but an unrealistic looking airstrip.

Here are the changes made:

- > Added a lake (couldn't determine the name) that was left out. The lodge is situated on the edge of this lake.
- > Added a Main lodge & restaurant with parking and parked vehicles.
- > Modified the land class of the Lodge property to look more realistic.
- > Added cabins and campers
- > Placed float plane dock behind lodge with two float planes.
- > Moved airstrip closer to highway based on coordinates from Google Earth.
- > Modified airport background to appear more realistic.
- > Added yellow cones along runway edges to increase visibility of runway.
- > Placed buildings and other scenery objects to the east of the airstrip.
