

Gelina, Alaska Scenery for FS9

by: Scenery4FlightSims.com

This is fictional scenery for Gelina, Alaska; Pitka Airport (PAGA), designed for FS9. I created this scenery to "dress up" the area, which was pretty bare and outdated.

Here is what to look for in this scenery package:

- > Added missing taxiways according to Google Earth aerial view; and Taxiway signs.
- > Expanded parking ramp and added parking spots.
- > Removed default terminal and added a terminal building that seems more appropriate for this scenery.
- > Remove other default buildings from the ramp and replaced with more appropriate buildings.
- > Added night lighting to the ramp area.
- > Added a FS9 landclass "small suburban city" to represent the town of Gelina.
- > Added yellow cones along gravel runway 6 - 24.
- > Extended the airport road to the city limits.
