

Gustavus, Alaska Scenery for FSX
by: Scenery4FlightSims.com

This is fictional scenery for Gustavus, Alaska (PAGS), designed for FSX. I created this scenery to "dress up" the area, which was pretty bare and outdated.

Here is what to look for in this scenery package:

- > Removed all of the default buildings and added buildings more suitable for this airport.
- > Added night lighting to the ramp area.
- > Added additional parking .
- > Revised airport layout based on aerial photo (Google Earth).
- > Added the town of Gustavus, located a few miles from the airport.
