

Blue Grass Airport - KLEX, Lexington KY - for FSX  
by: Scenery4Flightsims.com

This is fictional scenery for KLEX, Blue Grass Airport, Lexington, Kentucky designed for FSX. I brought this airport up to date because it had been added on to and approaches changed since FSX was developed.

Blue Grass Airport (IATA: LEX, ICAO: KLEX, FAA LID: LEX) is a public airport in Fayette County, Kentucky, 4 miles west of downtown Lexington. The current main terminal building was opened in 1977. The airport covers 911 acres (3.69 km<sup>2</sup>) and has two runways. It is home to the Aviation Museum of Kentucky. On April 18, 2007, Blue Grass Airport opened an extension of Concourse B, adding six boarding gates with 4 new jetways. On August 4, 2010 a new 4,000 foot runway, 9/27, opened replacing the previous 3,500 foot runway, 8/26. In 2013, 1,104,354 passengers departed or arrived at Blue Grass Airport.

Here is what to look for in this scenery package:

- Added airport property to accommodate the newest runway.
- Added runway 9 - 27 per current airport diagram.
- Remove runway 8 - 26.
- Added / edited taxi signs.
- Added new taxiways connecting to the new runway.
- Added night lighting to the ramp area.
- Added to airport property to accommodate missing ramps.
- Added missing GPS approaches and necessary waypoints.
- Added additional parking.
- Added fixed jetways to terminal.
- Adjusted the landclass scenery surrounding the airport to make it more realistic (the city was encroaching on the airport).
