

Kotzebue, Alaska Scenery for FS9

Ralph Wien Memorial (PAOT)

by: Scenery4FlightSims.com

This is fictional scenery for Kotzebue, Alaska (PAOT), designed for FS9. I created this scenery to "dress up" the area and update the airport.

Here is what to look for in this scenery package:

- > Changed paved runway designator from 8-26 to 9-27 .
- > Changed runway designation of gravel runway from 17-35 to 18-36.
- > Reworked shoreline of lake at south end of runway 18-36.
- > Realigned ILS for runway 9-27 to the real world 1.9 degree offset.
- > Added more parking.
- > Removed default buildings and replaced with buildings better suited for local.
- > Added ramp lighting for night operations.
- > Built up small village with scenery objects.
