

## Salmon Lake, Alaska (Z81) Scenery for FSX

by: Scenery4FlightSims.com

This is fictional scenery for Salmon Lake, Alaska (Z81), designed for FSX. I created this scenery specifically as a Hunting & Fishing resort.

Here is what to look for in this scenery package:

- > Removed all default buildings.
- > added some static aircraft.
- > Lengthened the gravel runway: from 1860 ft to 2500 ft.
- > Added log structures: Cabins & lodges.
- > Added float plane docks.
- > Added boat docks.
