

Sheep Mountain Lodge, Alaska Scenery for FS9
by: Scenery4FlightSims.com

This is a representation of the Sheep Mountain Lodge and airstrip (PASP) in Alaska (sheepmountain.com). "The Lodge is located along the scenic Glenn Highway halfway between the towns of Palmer and Glennallen."

Here are the changes made to dress up this airport:

- > Added a Main lodge & restaurant with parking and parked vehicles.
- > Added a gravel parking ramp.
- > Added landclass "conifer forest" which added tall pine trees to the immediate area.
- > Added lodges & cabins back in the pine trees.
- > Added a gravel drive to the main highway.
- > Added yellow cones along runway edges to increase visibility of runway.
