

Skagway, Alaska Scenery for FS9

by: Scenery4FlightSims.com

This is fictional scenery for Skagway, Alaska (PAGY), designed for FS9. I created this scenery to "dress up" the area, which was pretty bare and outdated.

Here is what to look for in this scenery package:

- > Gravel Taxiway along the length of the runway.
- > Expanded parking ramp and added parking spots.
- > Removed default terminal and added a terminal building that seems more appropriate for this scenery.
- > Added fence along airport boundary.
- > Added a landclass town to represent the town of Skagway.
- > Modified the shoreline to accomodate the cruise ship dock.
- > Added night lighting to the ramp area.
- > Added a cruise ship terminal building.
