

Talkeetna, Alaska Scenery for FSX

by: Scenery4FlightSims.com

This is fictional scenery for Talkeetna, Alaska (PATK) and Talkeetna Village Air Strip (AK44), designed for FSX. I created this scenery to "dress up" the area, which was pretty bare and outdated.

Here is what to look for in this scenery package:

- > Expanded parking ramp and added parking spots.
- > Removed default buildings and added stock buildings that seems more appropriate for this scenery.
- > Added static aircraft.
- > Added parallel taxiway for runway 18-36 per current airport diagram.
- > Added taxi signs.
- > Added night lighting to the ramp area.
- > Added landclass scenery to represent the village of Talkeetna.
- > Modified Talkeetna Village Airstrip (AK44) by adding trees alongside runway and added a FBO building and static aircraft.
