

Valdez Pioneer Airport, Alaska Scenery for FSX
by: Scenery4FlightSims.com

This is fictional scenery for Valdez Pioneer Airport, Alaska (PAVD), designed for FSX. I created this scenery to "dress up" the area, which was pretty bare and outdated.

Here is what to look for in this scenery package:

- > Added taxi signs.
- > Added helipad.
- > Removed most of the default buildings and added buildings more suitable for this airport.
- > Added night lighting to the ramp area.
- > Added a quarry/gravel pit near the east end of the airport (based on aerial photo).
- > Added the town of Valdez, located a few miles SW of the airport.
- > Added marina and tanker dock at the town of Valdez.
