

Willow, Alaska Scenery for FS9

by: Scenery4Flightsims

This is fictional scenery for Willow, Alaska (PAUO), designed for FS9. I created this scenery to "dress up" the area and update the airport.

Here is what to look for in this scenery package:

- > Added a fictional dirt taxiway parallel to runway 13-31.
- > Added additional parking spaces.
- > Removed stock buildings and replaced with buildings that look more appropriate for area.
- > Added landclass village representing the town of Willow.
- > Added ramp lighting for night operations.
- > Added missing GPS approaches for runway 13 and 31.
