

Wrangell, Alaska Scenery for FSX
by: Scenery4FlightSims.com

This is fictional scenery for Wrangell, Alaska (PAWG), designed for FSX. I created this scenery to fix some major terrain issues of the default scenery.

Here is what to look for in this scenery package:

- > Removed most of the default airport buildings and replaced them with more appropriate buildings.
- > Reconfigured the parking spots and added additional.
- > Completely remade the terrain to repair the shorelines that went up the bank along the entire airport property.
- > Modified the landclass scenery for the town of Wrangell to more closely represent the real world location of the town.
- > Added night lighting to the ramp area.
